

- **Currently:**

- Air Program Pollutant Record
  - Requires Class
  - Requires Compliance
  - Requires Attainment
  - Requires Air Program
- Separate from all actions—no dates associated
- No start and stop dates for noncompliance available
- No reasons for noncompliance available
- Requires user to go to the Air Program Pollutant Record to change status.

# **Automated Compliance Reporting**

**Compliance Status generated using three different methods:**

- **FCE Unknown Compliance Generation**
  - Provides pollutant
  - Start and stop date can be derived

# Automated Compliance Reporting

- **HPV Action Linking**

- Provides pollutant
- Start date is the Day Zero
- Violation Code can be used to define the violation.
- Date Addressed or Date Resolved can be used as the Stop Date

# Automated Compliance Reporting

- **Non-HPV Action Linking**
  - Provides pollutant
  - Violation Code can be used to define the violation.
  - A new series of Action Types can be created to document Start Date, Stop Date, and other vital pieces of information.
